

Abstract

Educational discussion platforms are the organized online grouping of individuals that are aimed to discuss about several educational (curriculum or non-curriculum) issues. The internet is filled with millions of enthusiastic individuals who are looking to connect and interact with each other. Discussion platform provides the right opportunity for such group of individuals to create rightful and disciplined discussions.

Diskourse, itself is a project comprising various features like resources sharing, vlog, discussion topics creation and response, profile updating, List (follow/follower) organization and various other application to enhance the overall look and feel of the website.

Profiles and List are two key features on our site. The third is a public commenting feature ('Testimonials', 'Comments', 'The Wall'); this feature allows individuals to comment on their “enlisted” profiles. These comments are displayed prominently and visible for anyone who has access to that profile.
